

Welcome to virtual Butrint...

The dedicated website on Butrint accessible on www.butrint.org is the most comprehensive and up to date anywhere on the web. The website conveys the evocative history and beauty of Butrint, setting it in its spectacular environmental and archaeological context.

The website also serves as a compelling link between a virtual and an actual visit to Butrint. Information is offered on individual monuments, periods, places and people that together inform the nature of Butrint. In this way each virtual visit is a personal experience choosing what to view and which route to take through the city.

Bi-lingual in format (Albanian and English), the website includes directions to Butrint and other nearby sites to help plan an actual visit to Butrint and to Albania in general.
